

WELCOME BACK!

This year promises to be an exciting challenge for all of us as we work to prepare our students for life. That challenge will bring us face to face with a very diverse student body that provides us with joy and inspiration, and also brings out the best we have to offer in order to meet the needs of this student body. You will undoubtedly be frustrated at times, confused at times, and anxious at times. I would venture to say you will also feel triumphant, rewarded, and satisfied as well.

You are involved in a noble venture – shaping the future of the human race one child at a time. Take the time to enjoy the process, enjoy the successes of your students, and work hard to improve upon the lack of success while noting the positives and encouraging continued attempts to succeed.

We have one of the most talented staffs in the country. We have to be in order to overcome the unique and varied challenges that our students bring to our jobs every day. You will find that by working together, sharing ideas, and forging new strategies together with your colleagues that you will be able to overcome the difficult issues you face. We are always stronger together than alone.

HAVE A GREAT YEAR!!
